

Ears and Eyes

Ears

- External Examination (Auricle and Mastoid)
 - Size
 - Shape
 - Symmetry
 - Color
 - Position
 - Tenderness
 - Odor

Ears

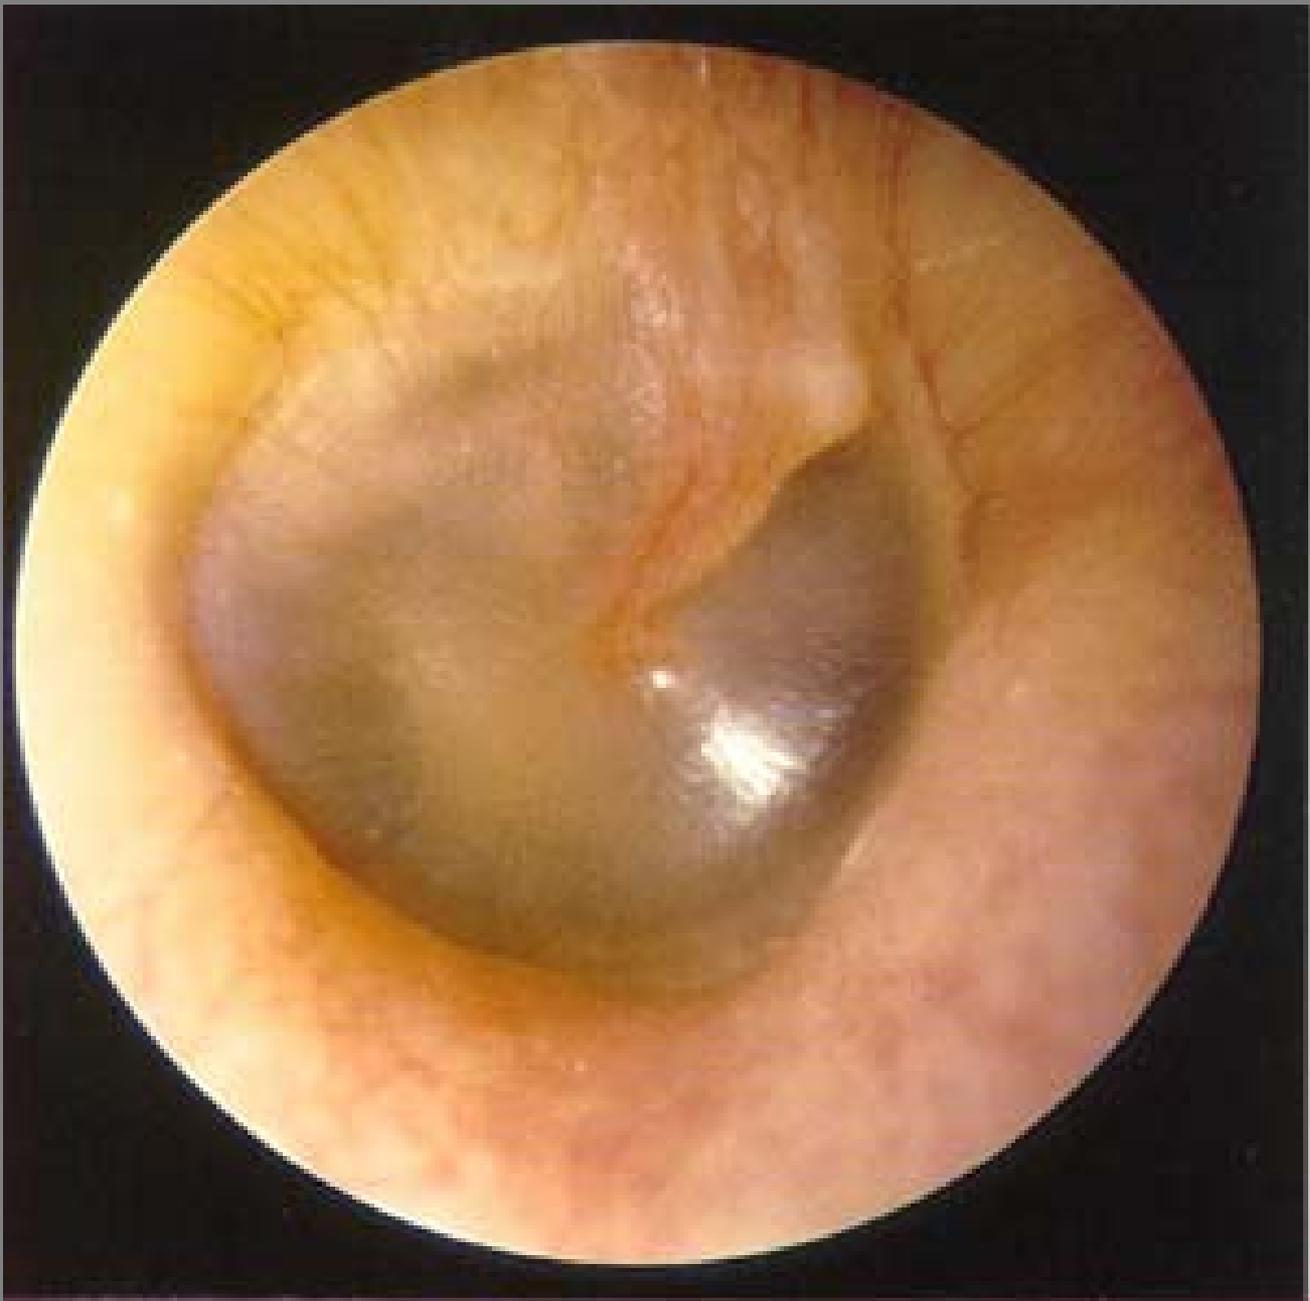

- Otoscope
 - Speculum
 - Position
 - Patient
 - Scope
 - Auricle
 - Up and back

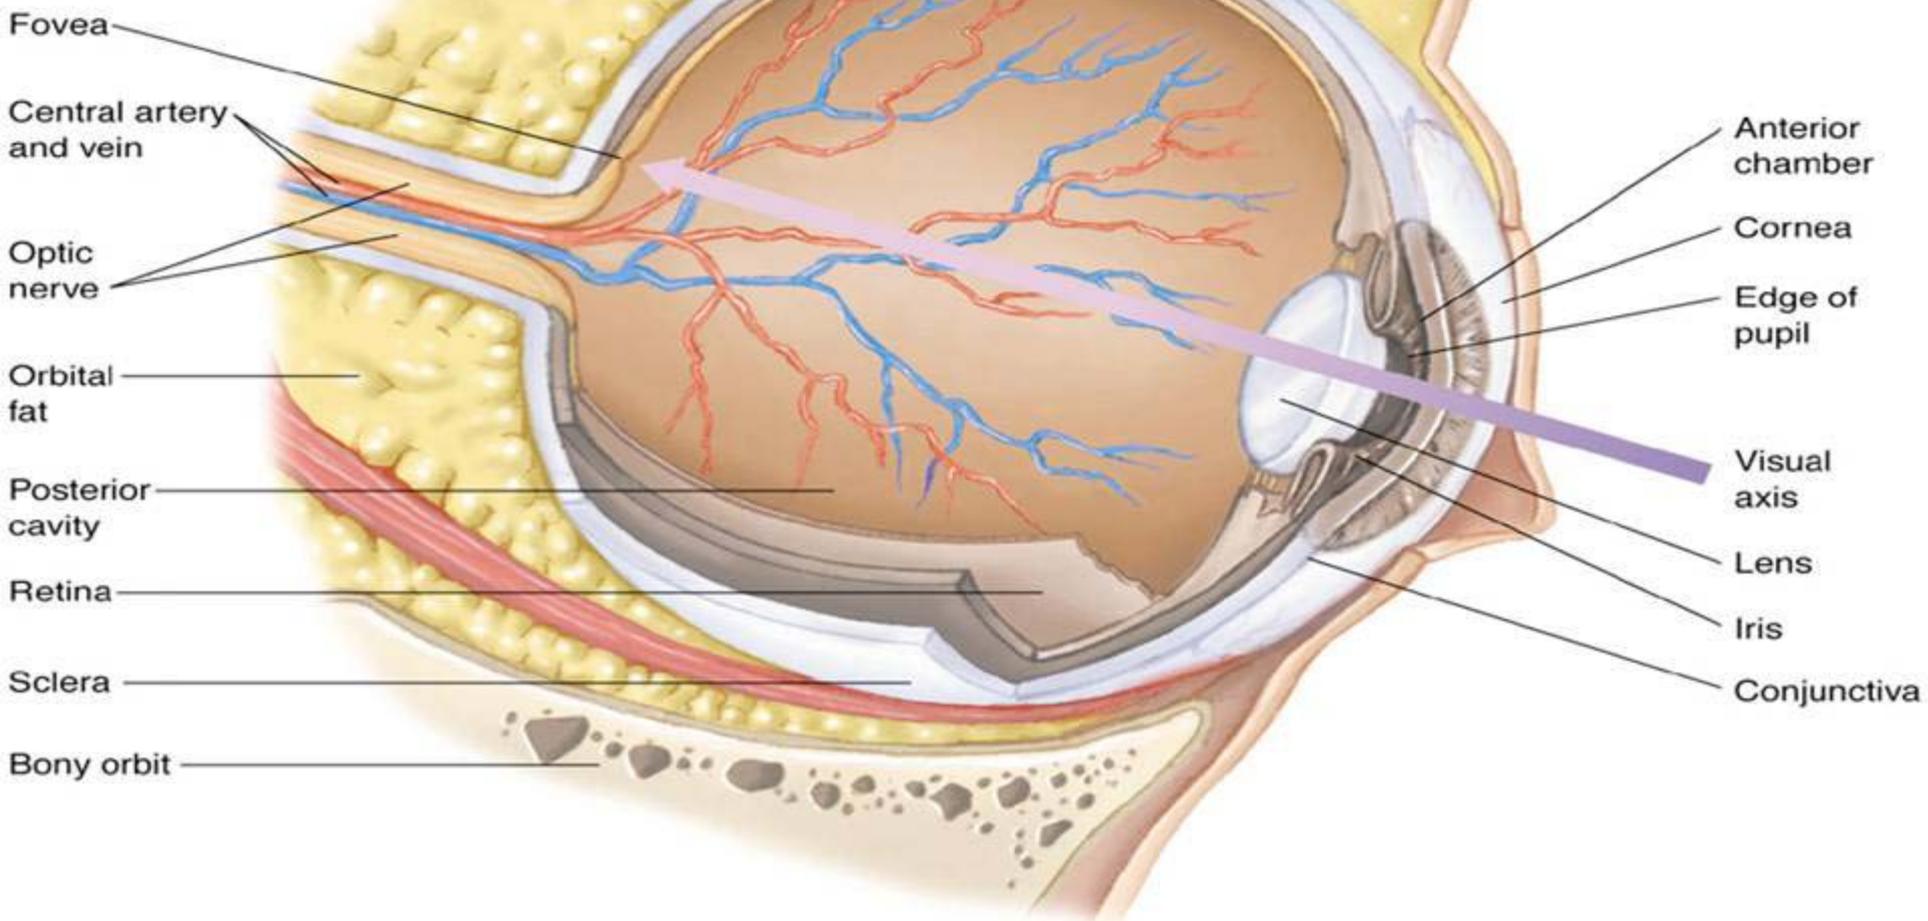

Ears

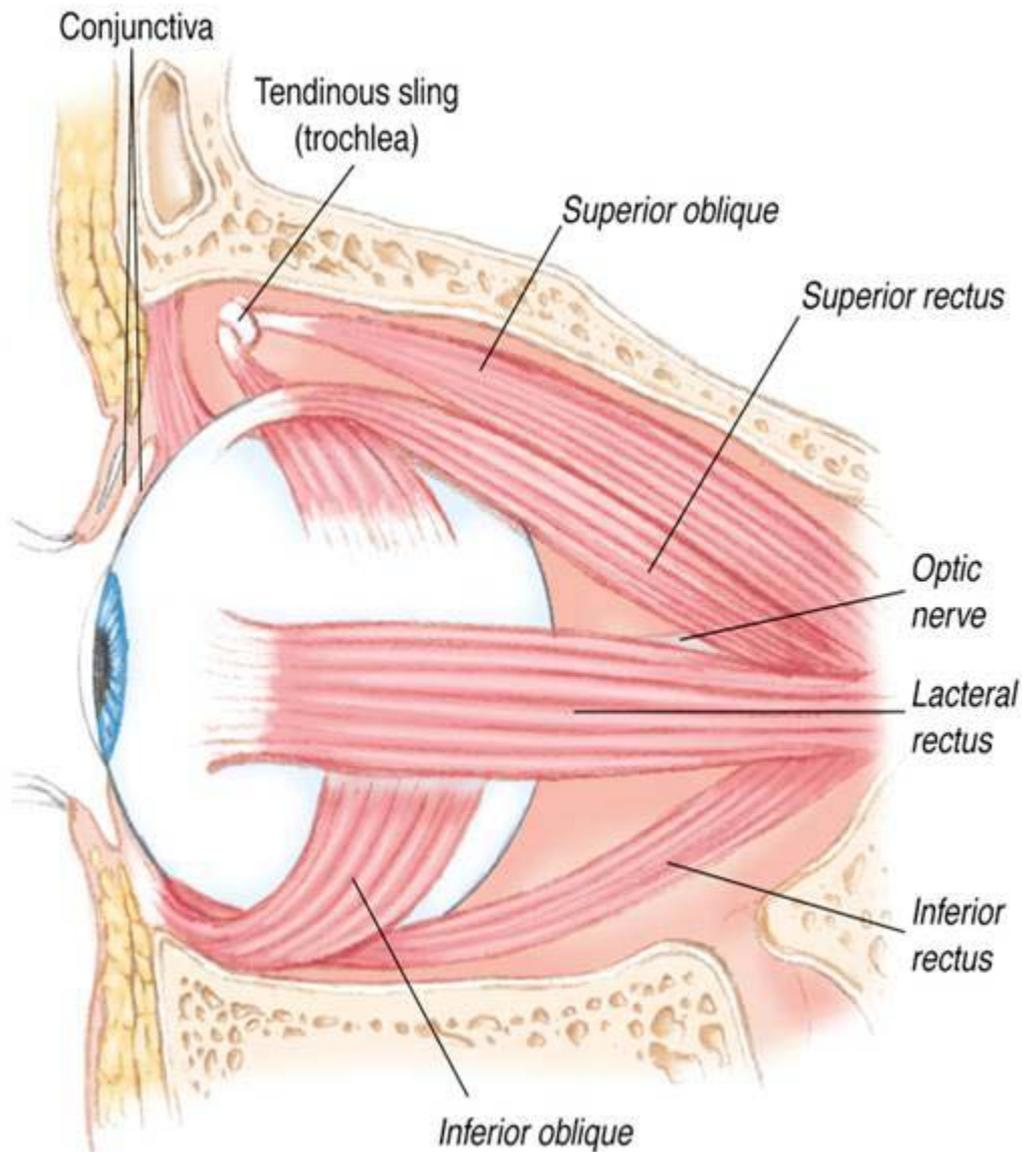

- Otoscope
 - Canal
 - discharge
 - scaling
 - redness
 - lesions
 - foreign bodies
 - cerumen

Ears

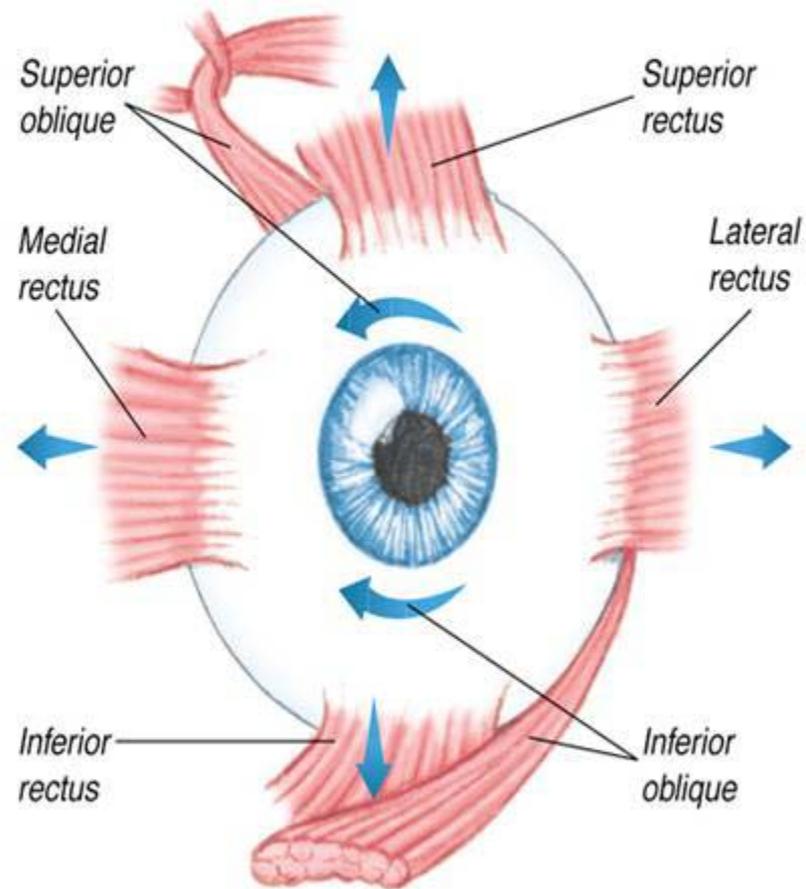

- Otoscope
 - Tympanic Membrane
 - landmarks
 - color
 - contour
 - perforations

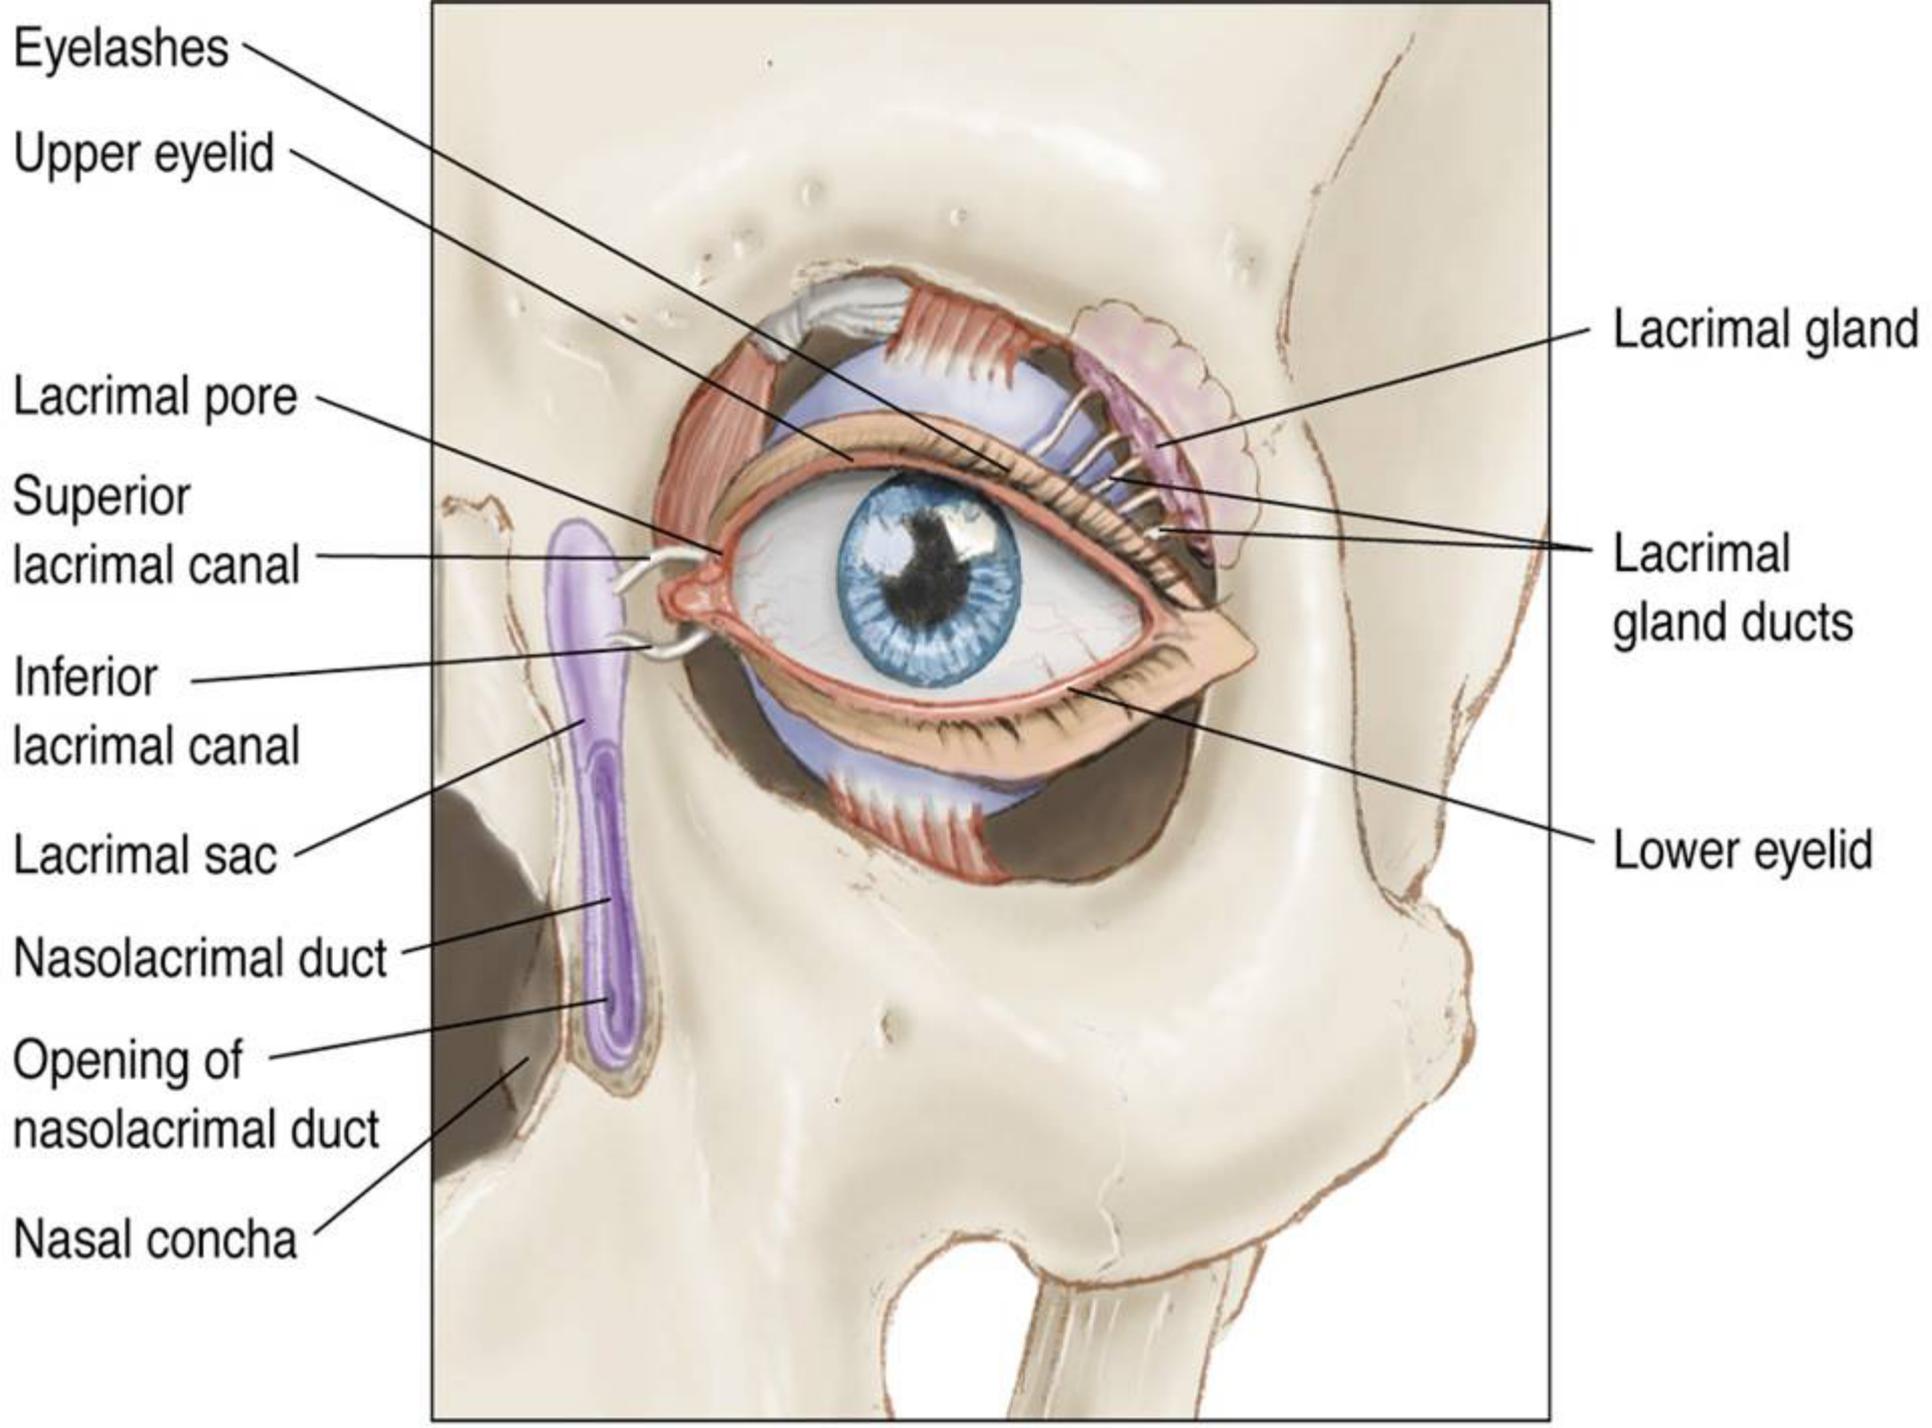

(a) Lateral surface, left eye

(b) Anterior view, left eye

Eyes

- External Examination
 - Orbital Area, Eyelid
 - Conjunctivae/Cornea
 - Clear
 - Foreign body
 - Ulcers
 - Erythema/Exudate
 - Hyphema
 - Pupils/Iris

Eyes

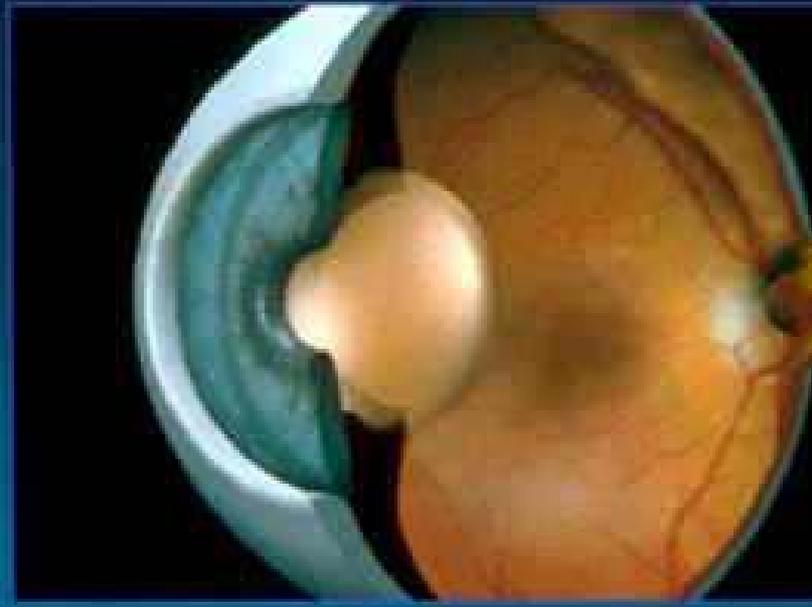

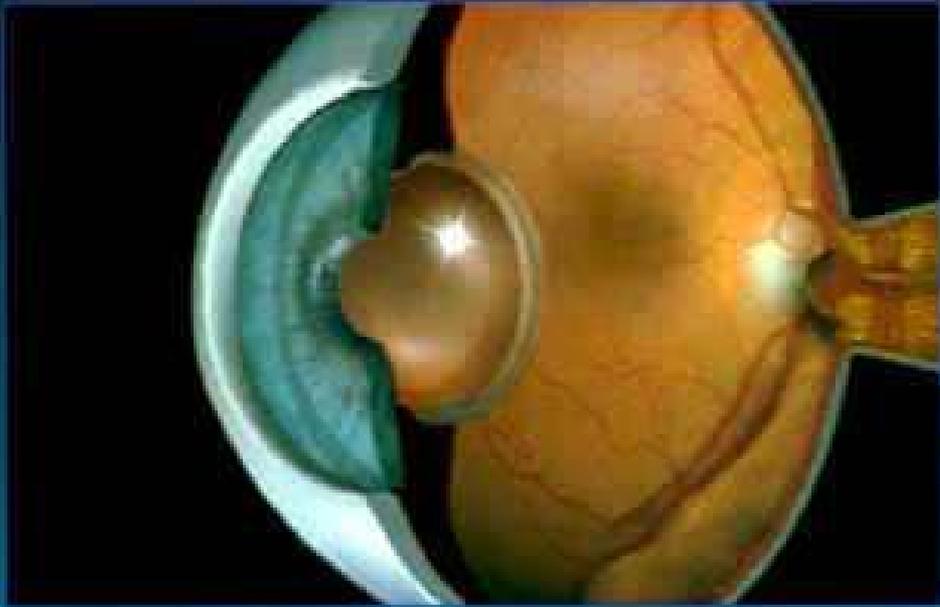

- Ophthalmoscopic Examination
 - Examine
 - Optic Disc
 - Arteries
 - Veins
 - Retina
 - Set Up
 - Tiring
 - Pupil Dilation
 - Method
 - Settings

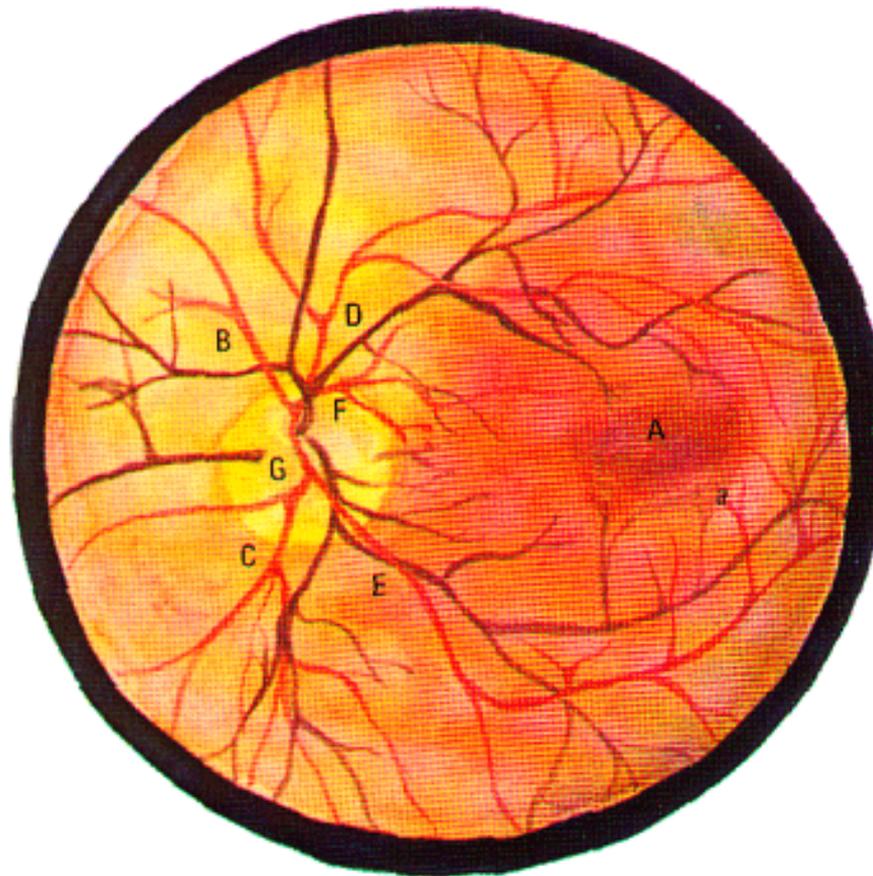

Eyes

- Ophthalmoscopic Examination
 - See only small portions at a time
 - Red Reflex
 - Fundus
 - Yellow or Pink
 - Vascular Supply
 - Focus on vessel
 - Branch away from Optic disk
 - Arterioles/Venioles

Eyes

- Ophthalmoscopic Examination
 - Disk
 - Margins sharp and well defined
 - Macula (Fovea Centralis)
 - Central Vision/ Color
 - Difficult to examine

Fundus Of The Left Eye

- A. FOVEA CENTRALIS
- a. MACULA LUTEA
- B. SUPERIOR NASAL ARTERY
- C. INFERIOR NASAL ARTERY
- D. SUPERIOR TEMPORAL ARTERY
- E. INFERIOR TEMPORAL ARTERY
- F. CENTRAL RETINAL ARTERY
- G. OPTIC NERVE
